

Module 1

Practice Guide for Community Health Assessment

This Practice Guide is designed to help you apply what you have learned to your own community health assessment and improvement efforts. Although optional, we consider this an important companion to the Community Tool Box Online Curriculum.

[From: Assuring Ongoing Involvement of Community Members]

- 1.1.1. Indicate what your group will do to make it easier for community members to be involved in community health assessment and planning efforts.

Your Plan:

- 1.1.2. Indicate what your group will do to make it more rewarding for community members to be involved in community health assessment and planning efforts.

Your Plan:

- 1.1.3. Identify what roles and responsibilities are available for community members to be involved in the community health improvement effort.

Your Plan:

[From: Assuring Shared Ownership among Stakeholders]

- 1.2.1. Identify key stakeholders for the assessment and planning process in your community.

Your Plan:

- 1.2.2. Identify key stakeholder's interests and offers for the community health assessment and planning process.

Your Plan:

- 1.2.3. Identify human and financial resources needed for the work of community health improvement and secure commitments.

Your Plan:
